

Member Benefits

Snapshot of Benefits at Each Tier Level

Each membership tier offers measurable value through relationship-building opportunities, marketing, professional services (like access to human resource, tax and legal professionals), and more.

For new members, it is an opportunity to enter at a level that meets your needs. As an existing member, you will have the option to remain where you are or opt for a higher value membership tier.

The days of calculating dues by number of employees and business categories are over, and they should be. This outdated system penalized you for growth and the Chamber "product" was the same for every business regardless of your business size, needs and expectations. Today, from our food to our shopping, we all expect value, options and customization. Your investment in the Chamber should be no exception. Which will be your investment level?
